

GoSleep RECOVERY POD

Sleep, recover, recharge, the "GoSleep Recovery Pod" Capsule is a private and protected space available at all times at work, at university, in hospitals, in sports environments or at the airport.

- Each Pod transforms into a private, intimate, and fully enclosed space thanks to a fold-down cover.
- Fine perforations create a soft dimness for maximum comfort.
- These same perforations allow for natural ventilation, ensuring fresh air and a comfortable temperature inside.

- Each Pod transforms into a private, intimate, and fully enclosed space thanks to a breathable, hinged lid.
- Fine perforations create soft, diffused light for maximum comfort and privacy.
- These same perforations act as natural ventilation, ensuring fresh air and an optimized, comfortable interior temperature.
- At the foot of the pod, beneath the mattress, is a secure storage compartment that opens and closes manually.
- The pod is equipped with USB ports for charging phones and tablets.

Height	118 cm - 46.5 inch
With recliner seat	185 kg - 408 lbs

POWER CONSUMPTION

5W/24H Maximum
Power Outlet
Double USB outlet

MATERIAL

Shell
Side Frame
Upholstery

FEATURES

Ventilation
Storage space under the seat
Plug & Play

OPTION

GOSLEEP PRO[®] Neurosonic mattress which produces low frequency vibrations

Neurosonic technology is based on a patented low-frequency vibration technology that acts on the nervous system. It aims to promote balance in the autonomic nervous system, support and accelerate recovery, relieve stress, improve sleep quality, and speed up convalescence. It is particularly recommended in cases of stress, sleep disorders or lack of sleep, chronic fatigue, or for a break intended to provide mental relief.
