## A Perfect Fit For Every Space.

The Outdoor Pod is available in four thoughtfully designed sizes; **2, 4, 6 and 8 person**. Ensuring the ideal fit for intimate moments, social gatherings or professional spaces.

Whether you're creating a private retreat or a shared destination, each size delivers the same signature craftsmanship, comfort and open-air luxury.

## Outdoors, Elevated.

Step into the Outdoor Pod, a refined open-sided retreat where contemporary design meets the freedom of the outdoors. Its signature curved composite exterior forms a striking sculptural silhouette, while the interior wraps you in warm wood-effect liners, handcrafted hardwood trims, and beautifully integrated seating and table arrangements.

Engineered for comfort and crafted for impact, the Outdoor Pod transforms any residential or commercial space into an elevated destination. Personalise your pod with a choice of coloured exterior shells, bespoke interior finishes, and optional mains or solar power to create an atmosphere that's effortlessly luxurious and uniquely yours.

A statement of style. A sanctuary in the open air.

## Outdoors, Elevated.

Step into the Outdoor Pod, a sculpted sanctuary designed to bring refined comfort into the open air. Its signature curved composite exterior forms a modern spherical silhouette, while the enclosed double-glazed glass rear offers protection from the elements without compromising the view.

Inside, warm wood-effect composite liners and handcrafted hardwood trims create an inviting, architectural interior complete with integrated seating and a central table. Customise your experience with an array of premium options, from vibrant exterior shell colours to bespoke interior finishes, mains or solar power integration, ambient lighting and more.

Whether used for relaxation, dining, work or retreat, the Outdoor Pod elevates every moment, delivering luxury, privacy and style in any outdoor setting.

## Framed In Glass.

The Outdoor Pod features a meticulously engineered **double-glazed glass rear enclosure**, offering a crystal-clear outlook while maintaining a sense of sheltered privacy.

Encased within a refined black composite and aluminium frame, the enclosure blends durability with contemporary styling.

The result is a sleek, high-performance rear façade that enhances both the pod's aesthetics and its year-round comfort. Bringing premium architectural detail to every outdoor space.

## Where Design Meets Durability.

Step inside the Outdoor Pod and discover an interior built for both comfort and longevity. The seating and table are crafted from durable composite material with a sleek **wood-effect finish**, available in **black or grey as standard**. Each surface is enhanced with hardwood trim, adding a warm, premium touch that elevates the overall feel of the space.

The result is a refined, low-maintenance interior that blends modern engineering with natural style. A workspace that looks good, feels good, and performs beautifully in any outdoor environment.

## A Solid Foundation For Outdoor Work.

The Outdoor Pod's flooring is engineered for durability and design in equal measure. Built from **powder-coated steel** with a **wood-effect finish**, it delivers a warm, natural look while offering exceptional strength underfoot.

Beneath the surface, **concealed adjustable feet** allow the Outdoor Pod to be perfectly levelled on uneven ground, ensuring stability wherever it's placed. These same anchor points also provide a secure method for fixing the pod to the ground, offering peace of mind in all weather conditions.

The result is a floor that not only looks the part, but forms a robust, reliable foundation for your outdoor workspace.

## Make The Inside Uniquely Yours.

The Outdoor Pod's interior can be tailored to match your style or setting. Elevate your pod with **optional Brown or Teak finishes**, adding warmth and a more natural aesthetic.

Whether you prefer bold, subtle, or something in between, the Outdoor Pod's interior colour options let you create a workspace that feels distinctly your own.

## Make It Yours In Any Colour.

For those looking to make a statement, the Outdoor Pod offers complete exterior personalisation. The signature spherical **shells can be finished in any RAL colour** as an optional upgrade.

This flexibility allows you to align the Outdoor Pod with brand colours, create a standout accent within your workspace, or bring a subtle architectural tone to the aesthetic. With limitless colour possibilities, the Outdoor Pod becomes not just a functional space, but a bold expression of identity.

## Power Up Your Productivity.

Upgrade your Outdoor Pod with the **Mains Power** option for a reliable, always-ready workspace. Each pod comes fitted with a 2-metre power cable and a standard outdoor 3-pin plug, making setup simple and convenient.

Inside, the Outdoor Pod is equipped with a bright **LED spotlight** and **two weatherproof USB sockets**, ensuring your devices stay charged and your workspace stays illuminated, whatever the task.

A seamless power solution designed to keep you working comfortably, efficiently, and uninterrupted.

## Stay Connected. Stay Powered.

The Outdoor Pod comes equipped with the OE Electrics Powerunit, delivering dependable, high-performance connectivity as standard. Each Pod includes **two UK 3-pin sockets, two USB ports, and two USB-C ports**, ensuring effortless charging for all modern devices, whether you're collaborating, presenting, or working privately.

Crafted with the same attention to quality that defines our Fluid Collection, the Powerunit is backed by OE Electrics' 10-year warranty, offering long-term confidence and exceptional durability. It's power you can trust, built into a workspace designed to empower every moment inside.

**Maximum usage - 1,200 watt**

## A Brighter Way To Work

The Outdoor Pod is illuminated by a **PIR activated LED strip light**. The lighting responds instantly to occupancy, creating a welcoming, energy-efficient glow the moment you step inside.

Balanced, comfortable, and crafted to enhance focus, our lighting design elevates the premium interior of the Fluid Collection while ensuring a consistently bright and inviting workspace.

Colour temperature 4000K

## Power. Connectivity. Capability.

For teams that need more from their workspace, the **Tech Pack** elevates the Outdoor Pod into a fully equipped collaboration hub. This upgrade includes a **screen hanging bracket** suitable for displays from 23" to 42", allowing for presentations, video calls, and shared digital work with ease.

To support seamless connectivity, the Tech Pack adds an additional power socket at screen height, along with a **Cat 6 ethernet port** and **HDMI interface**. Ensuring reliable performance for both wired and wireless setups.

Designed to integrate discreetly within the Pod's architecture, the Tech Pack enhances functionality without compromising the refined aesthetic of the Pod. It's intelligent technology, beautifully built in.

## Warmth, Exactly When You Want It.

For enhanced comfort in cooler conditions, the Outdoor Pod can be equipped with a discreet, high-performance **heating** unit. Neatly integrated beneath the desk on the rear panel, the heater delivers gentle, efficient warmth without intruding on the pod's clean, uncluttered aesthetic.

A dedicated power socket is supplied, and the system offers intuitive control through its touchscreen interface or the included remote control, allowing effortless adjustment from anywhere inside the pod. With customisable temperature settings and a programmable timer, the heater creates a perfectly tailored environment. Warm, inviting, and ready when you are.

A subtle upgrade that makes a significant difference, the heating option ensures year-round comfort without compromising design.

## Sit Better. Work Better.

The Outdoor Pod features an **integrated seating system** designed to elevate comfort, longevity, and visual cohesion. The bolstered liners act as a backrest, creating a seamless architectural finish that enhances the Pods premium interior aesthetic.

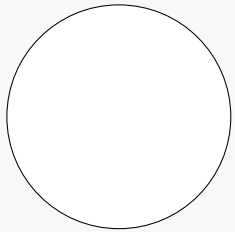

Upholstered in high-performance task fabric, the seating is crafted to withstand the demands of daily use, offering exceptional durability and reduced wear and tear. The result is a refined, resilient seating solution that supports productive meetings and focused work.

# Your space. Your style.

The seats and bolsters of the Outdoor Pod can be **upholstered in your choice of premium fabrics** from Gabriel's Focus Melange collection. Crafted from 100% worsted wool, Focus Melange is a woven felt fabric that redefines tactile luxury. Its ultra-soft, satiny finish and superior durability create a surface that is as indulgent as it is resilient.

Distinguished by a sophisticated, modern colour palette, Focus Melange brings a contemporary twist to the timeless felt texture. It opens up a world of mix-and-match possibilities, inspiring expressive interior styling and striking colour compositions.

Available in 43 refined colours, Focus Melange is the perfect fusion of craftsmanship, comfort, and design versatility. Enhancing the pod's interior with a textile that looks as beautiful as it feels.

## Comfort That Shapes The Quiet.

Our **Bolstered Foam Interior** is crafted to redefine comfort inside the pod. Each thick, cushioned pad is precisely contoured to create a soft, supportive environment while enhancing the pod's thermal performance.

This plush layer doesn't just feel indulgent, it works quietly in the background, adding insulation that helps regulate temperature and improve overall energy efficiency.

Engineered with acoustic performance in mind, the bolster system absorbs and dampens sound, reducing external noise and enhancing the sense of privacy within. The result is a cocoon of calm: warmer, quieter, and unmistakably more comfortable.

A tactile finishing touch with functional depth, the bolster liner elevates the interior experience to something truly exceptional.

## Fresh Air That Fuels Focus.

The pod's **PIR-activated ventilation system** ensures fresh, comfortable air from the moment you step inside. Thoughtfully positioned at the top of the structure, the fan draws out warm, stale air, maintaining an optimised internal climate without any effort from the user.

Externally, a sleek weatherproof cover shields the vent from wind and rain, preserving both performance and durability in all conditions. This intelligent airflow solution works quietly and efficiently, keeping the pod naturally refreshed, so every visit feels calm, clean, and comfortably inviting.

 **184 air changes per hour**

## A Solid Foundation For Outdoor Work.

The Outdoor Pod rests on a foundation designed for strength, precision, and elegance. Its fixed **steel-frame floor** provides exceptional stability, while the black wood-effect composite surface delivers a refined, modern aesthetic that complements the pod's signature form.

Beneath the surface, discreet adjustable feet allow the pod to be levelled effortlessly on uneven ground, ensuring a perfectly balanced installation in any outdoor environment. These feet also double as secure anchor points, providing robust safety and peace of mind once the pod is positioned.

More than just structural support, the engineered floor contributes to the pod's enhanced acoustic performance, helping create a quieter, more comfortable interior.

Strong, beautifully finished, and intelligently designed. This is flooring that elevates the entire pod experience.

## Cool When You Need It. Warm When You Want It.

For those seeking complete environmental control, the Outdoor Pod can be equipped with an **optional air conditioning system** that delivers both heating and cooling. Inside, a compact and unobtrusive unit is seamlessly integrated into the rear panel beneath the desk, preserving the pod's clean interior aesthetic. Outside, the paired external unit sits neatly behind the pod, maintaining the overall elegance of the design.

Provided through a trusted third-party supplier, the AC system comes with its own dedicated servicing and warranty support, ensuring long-term reliability and peace of mind.

With precise climate control at your fingertips, the air conditioning option allows the pod to be enjoyed in total comfort throughout every season. Cool, warm, or perfectly balanced, exactly as you wish.

## Energy That Flows with the Outdoors.

Choose the **Solar Power** option to make your Outdoor Pod a truly independent outdoor workspace. A curved solar panel, engineered to follow the unique spherical form of the Orb, delivers efficient energy capture while maintaining the pod's sleek aesthetic. The generated power is stored in a discreet battery unit housed within the seat base, keeping everything tidy and out of sight.

Inside, you'll find a bright **LED spotlight and two weatherproof USB sockets**, giving you dependable, renewable power for lighting and device charging, no mains connection required.

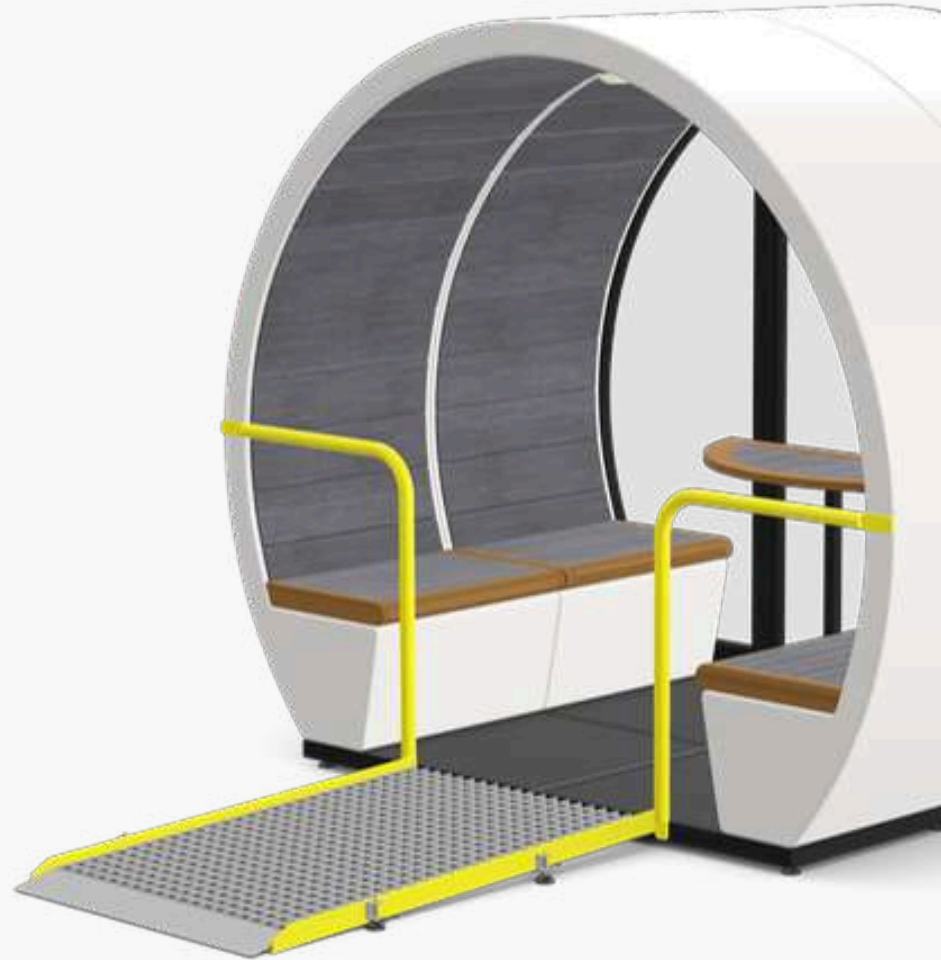

A clean, sustainable solution that lets you work wherever the sun takes you.

## Designed for Everyone.

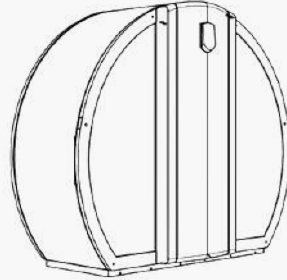

The Outdoor Pod can be enhanced with our **accessibility upgrade**, available on the 4, 6 and 8 person models.

A discreet **integrated ramp** provides smooth wheelchair access, while a refined, **reduced-size table** creates comfortable turning space inside the pod.

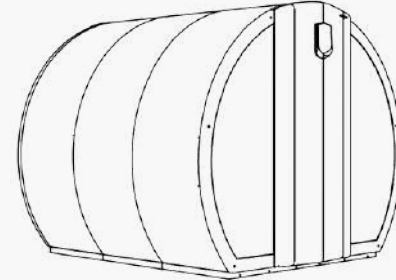

Thoughtful design ensures every guest can enjoy the same signature comfort, style and open-air experience without compromise.
