BUSINESS RANGE

UNO NEW KHARA

Concentration space - 1 person

The Uno New Khara phone booth is an excellent workspace for long-term projects and videoconferences.

Its ergonomic design and advanced audio/video technology make it the ideal solution for telephone calls and remote video conferencing.

With an intuitive user interface and a host of features, it's the perfect solution for any professional looking to stay productive and connected.

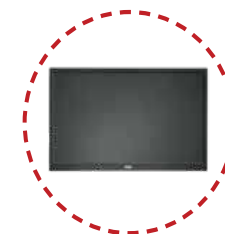

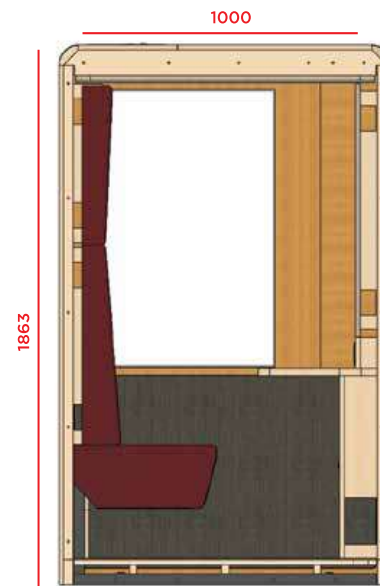

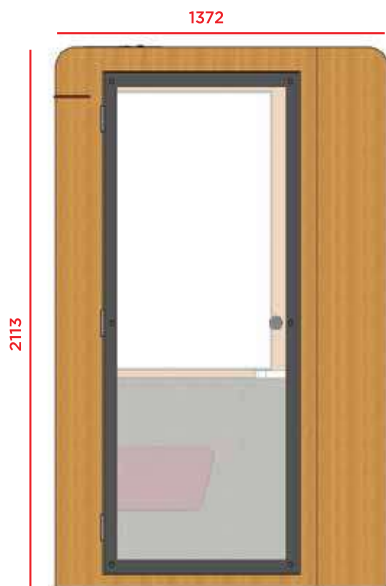

This range features the optional ARS® (Air Cooling System) to help cool the temperature inside the pod by up to 3 degrees.

Get the Uno New Khara today and experience the ultimate in individual work.

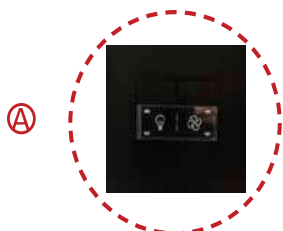

COMPONENT'S CERTIFICATIONS

Screen 23,6" (Option)

Dimmer
Light and ventilation

A 5-speed dimmer switch for light and ventilation is mounted on the central column, allowing you to adjust the intensity of each piece of equipment as you wish. By default, smart pods are equipped with light, ventilation and connectors. They are activated when a person enters the smart pod.

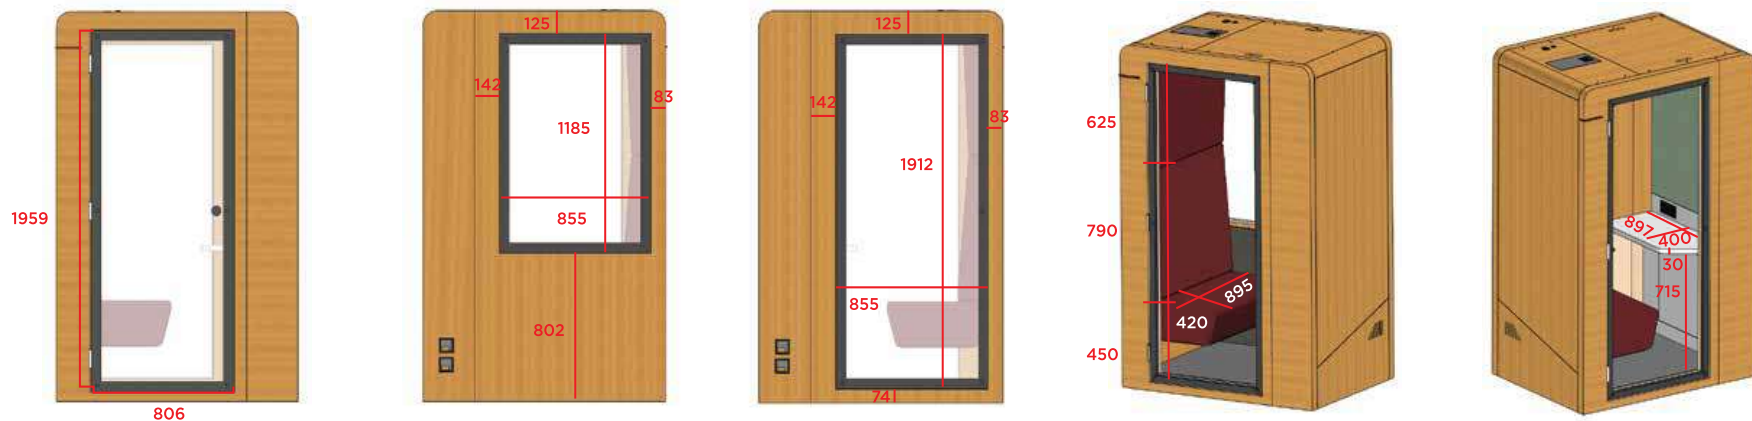

The air inside the smart pod is fully regenerated every minute (intensity adjustable with the dimmer) When the smart pod is no longer occupied, it will remain on and continue to ventilate for 3 minutes to ensure that the air is fully regenerated for the next use. Once these 3 minutes have elapsed, the light and ventilation switch off automatically.

Of course, the smart pod can be occupied directly after the last use without waiting the 3 minutes.

In a UNO smart pod, the recommended time of use is estimated at 1h.

Connectivity:
 1 x 110v + USB A + USB C
 Option: 1 x HDMI + 1 X RJ45

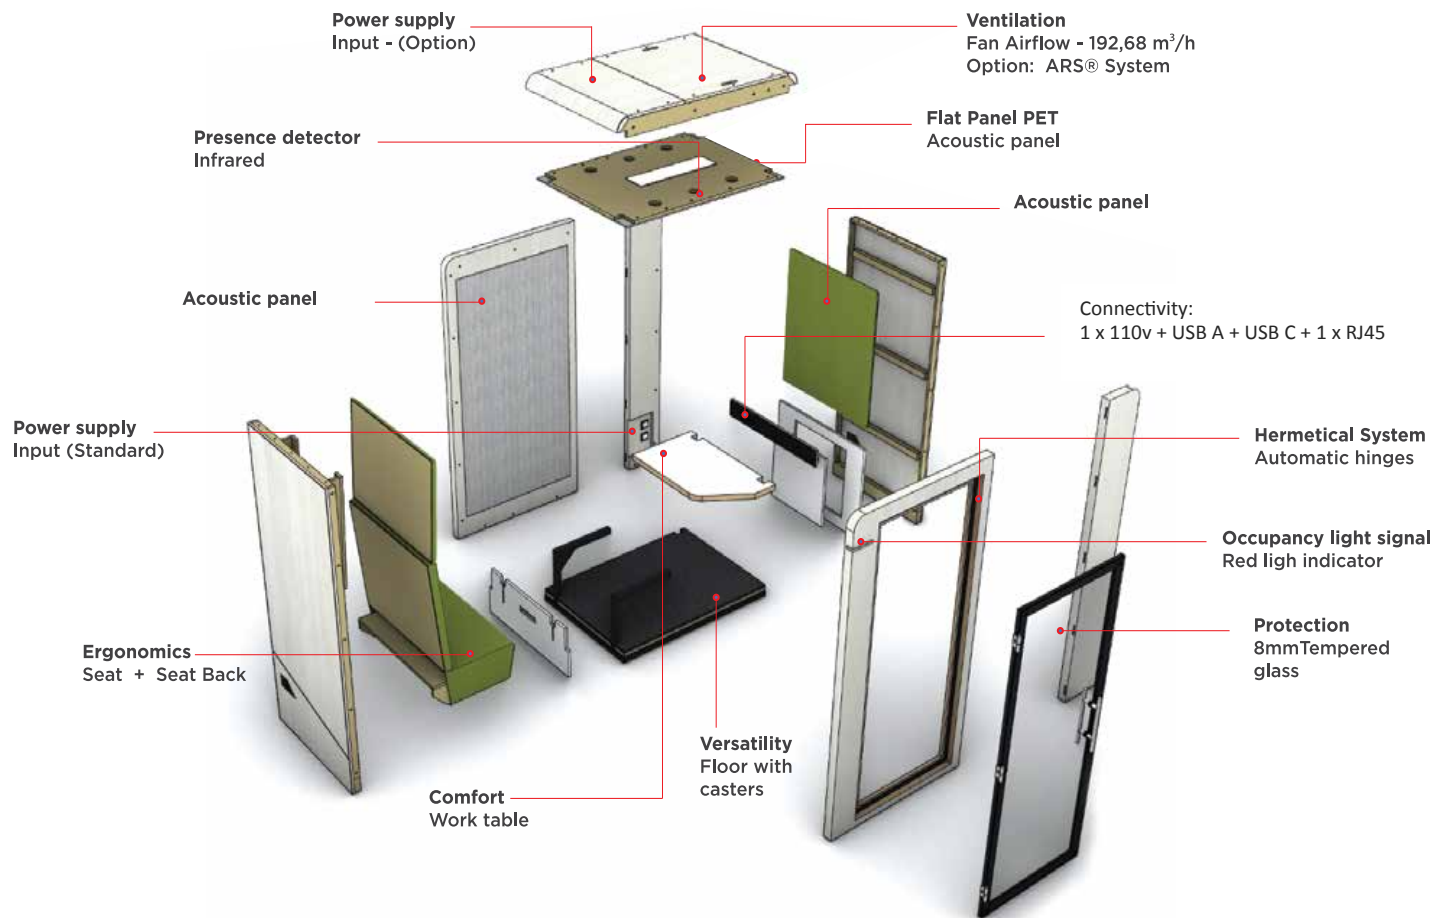

****Disponibile acoutic back, semi-glass back or full glass back
 Choise of door opening direction = left or right

INNOVATION AND LUXURY | OPTION

WOOD - BRUT CP

The structure of our smart pods is made of birch plywood. This type of plywood is produced from 100% birch wood, obtained by gluing adjacent layers together with crossed, right-angled wires of high quality and durability. It offers a number of advantages, including durability, wear resistance and resistance to more aggressive environments.

ACOUSTICS AND DESIGN

"CUBIC BY GABRIEL" is an embossed fabric. It features an elegant embossed pattern with a distinctive, youthful touch and a soft, luxurious feel.

- Embossed fabric with foam backing
- Flammability certification: flame retardant - EN 10211
- 3D pattern
- Soft and voluminous
- Superior comfort
- Durable and resistant- Acoustic

OTHER SIDES OPTION - SIDES

Pet acoustic:

Composition: 100% recycled PET, made from post-consumer recycled plastic bottles.

Cork & recycled rubber:

Made from recycled rubber and granulated cork. An excellent solution for acoustics.

100% natural cork:

100% natural, reusable and recyclable, an excellent solution for acoustics.
